

## **NI's S&E Principles**

### **S&E Management System (SEMS)**

## **Elevated City Toll Road Construction**

### **Project Summary :**

Project Code :  
Project : JORR Expressway  
Sector : Toll Roads  
S&E Category : Type 2  
Location : Cukinir – Jatiasih-Ulujami, DKI  
Status : Waiting Government approval of FS, Basic Design and ANDAL  
First Disclosure Date : 2019

### **SUMMARY:**

A 21.4 km elevated (2<sup>nd</sup> level and 3<sup>rd</sup> level), 2 x 2 lanes toll road above existing JORR toll road between Cikunir, Jatiasih and Ulujami. The consortium consists of MUN, Adhi Karya and Acset.

MUN, Adhi Karya and Acset and WIKA submitted Feasibility Study and Basic Design carried out by Nippon Koei to the government (Bina Marga, Ministry of Public Works and Housing) in June 2019 and waiting for decision from the government.

**HSE status:** SEMS Forms 1 and 2 complete and compliant. AMDAL studies carried out by qualified the AMDAL consultant AMAS. Some land acquisition will be required as detailed in the ANDAL document.

**Last Update:** August 2021
